

HACKETTSTOWN REGIONAL MEDICAL CENTER
Administrative Policy and Procedure

SECTION: FACILITIES

Number: FA18

Number of Pages: 1

Issue Date: June 1993

Revised Date: May 2006

TITLE: VENTILATION/TEMPERATURE CONTROL

PURPOSE

To maintain a desirable temperature in the hospital which is comfortable for patients.

POLICY

A climate-controlled airflow is provided in each patient area to maintain a constant temperature comfortable to the patients. To maintain the desired temperature, a thermostat is provided in every room or area which is controlled automatically. When the temperature needs to be adjusted, contact the Maintenance Department to reset the individual room thermostats.

All windows and outside doors are to be kept closed for the system to function efficiently. If windows are found open, please report to nurse manager.
