

**HACKETTSTOWN REGIONAL MEDICAL CENTER
CARDIO PULMONARY POLICY MANUAL
OXYGEN ADMINISTRATION FOR PULMONARY REHABILITATION**

=====

Effective Date: March 2010
Cross Referenced:
Reviewed Date: 02/16
Revised Date: 12/12

Policy No: 9.004
Origin: Cardio Pulmonary
Authority: Cardio/Pulmonary Manager
Page: 1 of 1

Purpose: To ensure that patient's oxygen saturation is in acceptable range (as designated by MD) while patient is in pulmonary rehab.

Procedure: Any patient with a resting oxygen saturation of 90% or less will be placed on supplemental oxygen prior to exercise. Patient's oxygen saturation will be maintained during exercise at 90% or greater. Supplemental oxygen will be titrated as needed to maintain.

****Acceptable oxygen saturation levels may fluctuate, from patient to patient, depending on the level of activity, patient requirements on a particular day and specific orders from patients' MD.****
